Solar Water Heater For Your Home

Regarded widely as a reference in Solar Heating, Greenland Systems offer a range of High Performance Solar Water Heaters to meet every family's hot water demand

Greenland Systems Solar Water Heaters are registered with CER and with VEET and they qualify for various government subsidies, such as STCs, VEET Certificates, etc.

We offer a range of Electric Boosted and Gas Boosted Solar Water Heaters

All Greenland Systems Solar Water heaters are manufactured to highest specifications and are made from high quality materials for longest and trouble-free service life

Energy efficient Solar Knight Temperature controller and Ultra Low power consumption of the 8 Watt Grundfos solar circulation pump ensure absolutely lowest operating costs

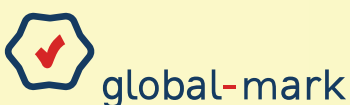

Tinox Solar absorber (by Almecco Tinox, Germany) for highest possible life-long performance

Supplied with Everlast Stainless Steel Hot Water Storage tanks with 10 year Warranty

Most popular models of Greenland Systems Solar Water Heaters:

- *Electric Boosted Solar Water Heaters*

Heater Model	Solar Collector	Details	Tank (Litres)
EGL 10016-320-C/OP	GL100-16 Power Output 8.20 MJ/hour	16pcs 100mm Solar Tube, Full Vacuum, 3mm boron Glass Tinox coated copper absorber	320
EGL 10012-260-C/OP	GL100-12 Power Output 6.15 MJ/hour	12pcs 100mm Solar Tube, Full Vacuum, 3mm boron glass Tinox coated copper absorber	260
EGL 10012-320-C/OP	GL100-12 Power Output 6.15 MJ/hour	12 pcs 100mm Solar Tube, Full Vacuum, 3mm boron glass Tinox coated copper absorber	320
